

Special Educational Needs and Disabilities (SEND) Local Offer

Name of Headteacher:	Ms Heidi Swidenbank
Name of SEND Leader (SENDSCO):	Ms Frances Gibney
Name of SEN Governor:	Ms Eileen Sheedy
Academy address:	390 London Road Isleworth Middlesex TW7 5AJ
Contact telephone number:	0203 963 0806
Academy email address:	office@bolderacademy.co.uk
Academy website:	www.bolderacademy.co.uk
Type of school:	Academy Mainstream comprehensive secondary school, mixed, 11-18 (year 7 only in 2018-2019)
Reviewed by Governors	February 2021

1. Identifying special educational needs and disabilities (SEND)

a. What kinds of special educational needs and disabilities does the Academy provide for?

- As a mainstream comprehensive Academy, we cater for a range of special educational needs. This includes the following areas of need: communication and interaction, cognition and learning, social emotional and mental health, sensory and/or physical.
- The Academy has an inclusive ethos so all SEND students experience and take part in all aspects of school life.
- Bolder has full wheelchair access.

b. How does the Academy know if children and young people have special educational needs and disabilities and need extra help?

- Bolder Academy has various systems that support the identification of Special Educational Needs and Disabilities (SEND). These procedures are primarily designed to identify areas of need but also to ensure the child and their parents/carers feel supported as the child progresses through their secondary education.
- Bolder Academy uses data collection to track individual student's academic development against time and employs a rigorous monitoring procedure to analyse and interpret rates of progression. If a student is not making expected progress, then they are highlighted and there is further investigation. This procedure helps staff support students with SEND and also highlights the possibility of additional learning needs for others.
- Bolder Academy works in collaboration with its feeder primary schools to ensure knowledge is shared and students are identified at the earliest opportunity so that the required level of support is available to ensure a successful transition to Bolder Academy. This transitional period can be something students with additional learning needs require significant support with.
- Opportunities for parent/carer consultation are welcomed and parents/carers are invited to contact the Academy with queries relating to SEND when appropriate. Parents/carers with concerns should make first contact with their child's Form Tutor, who can ensure the issue is shared with the appropriate staff member(s). The Academy's SENDCo has responsibility for the strategic overview of SEND provision and will be informed of and involved with some parental consultation.

c. What should I do if I think my child/young person may have special educational needs/disabilities?

- If you have any concerns, contact your child's form tutor at the Academy to arrange a meeting to discuss any concerns.
- The SEND Local Offer is a resource designed to support children and young people with educational needs and/or disabilities and their families. It provides clear, accessible and up-to-date information about the available provision and how to access it. It directly involves young people with SEND and their parents and service providers in its development and review. The local authority's local offer is published on:

https://www.hounslow.gov.uk/info/20080/children_with_disabilities/1826/hounslow_local_offer

- Parents without internet access should make an appointment with the SENCo for support to gain the information they require.

2. Support the Academy provides for children and young people with SEND

a. What teaching strategies do you use to support children with special educational needs and disabilities?

- The SEND Policy, which is available on the Academy's website outlines how students are supported. The responsibility for the strategic overview of SEND provision, including the SEND policy, is the SENDCo and is closely monitored by the Academy's Governing Body.
- Bolder uses a wave model to help map provision and available support within the Academy. Wave 1 refers to provision offered to all students. Wave 2 provides additional short-term interventions for students who have been identified as not making expected progress. Wave 3 refers to specialist support offered to students with high levels of need. These will be funded at the level highlighted on the students Educational Health Care Plan.
- All teachers are considered teachers of SEND and are expected to deliver differentiated and personalised lessons that meet the needs of their students. The majority of students' learning needs, including those with an additional learning need, will be appropriately met within this Wave 1 provision.
- Wave 2 provision caters for students, including those with SEND, who are identified as requiring supplementary provision; these students may be offered additional interventions designed to promote learning and improve outcomes. All Interventions that fall within Wave 2 are designed to be short term, evidence based and all are monitored to measure expected rates of progress against time.
- If a student needs long term specialist support to access the Academy curriculum, they may fall within the bracket of Wave 3. Students in this bracket will often have an Educational Health Care Plan and require a high level of additional support. All additional support programmes are overseen by **the Head of Inclusion.**

b. What additional support is available to help my child with their learning including specific interventions provided and adaptations to the curriculum and learning environment?

- The Academy has **two teaching assistants** that work with the teaching staff to support learners with SEND in class. Students will also work with other professionals such as speech and language therapists.
- The Academy uses a number of resources to support learning such as Accelerated Reader **and Maths Watch**. Some targeted students attend Speech and Language therapy sessions to help develop communication skills or attention and listening skills.
- Social skills groups and emotional literacy **support is also** available to help support our more vulnerable learners.

c. How is the decision made about what type and how much support my child/young person will receive?

- The SENDCo will assess each SEND student from the evidence available; this includes progress data, information from subject teachers and from conversations with the parents/carers and student. If a student has an EHCP, this will be used to decide how much support the student needs. The level of support will be closely monitored. The Academy assesses the students regularly and this information is sent home so that parents/carers are kept up to date with progress.

d. How will I (the parent/carer) be involved in planning for and supporting my child/young person's learning?

- Parents/carers are part of the process of discussing any concerns there might be about a student's needs.
- This can be because parents/carers initiate concerns, or because the Academy initiates a meeting with the parents/carers as a result of emerging difficulties the student is experiencing.
- The Academy has an open-door policy. This means parents can ring to make an appointment to discuss issues with the Academy.
- Parents are invited into Academy at regular intervals to discuss their child's progress, and are encouraged to support their child's needs at home, wherever possible. Students who have an EHCP will attend a formal review meeting every year. Parents' evenings and other information evenings are also held throughout the year.

e. How will my child be involved in his/her own learning and decisions made about his/her learning?

- Academic progress feedback is shared with parents/carers each term including attitude to learning and attitude to home learning.
- Parents/carers have the opportunity to meet with staff at Parents' Evenings where it is possible for SEND issues to be discussed and actioned. During parental/carer consultations we share best practice and clearly identify what can be done by families at home to support the child's learning.
- All SEND students contribute their opinion and view as to what support they feel helps their learning and this is communicated to all staff through the use of SIMS and individual student support plans.

3. Children and young people's progress

a. How do you check and review my child/young person's progress?

- All students, including SEND students have reports which are sent home so that parents can monitor their progress. Staff have regular meetings to monitor the progress of each child. Students with an EHCP have a formal review meeting once a year, but other meetings can be arranged on a 1:1 need via the form tutor.

b. How do you know if the provision for children and young people with SEND at your Academy is working?

- All intervention programmes that we offer at Bolder have been proven to enhance the learning and improve the progress of students with SEND. The Academy measures the impact of its interventions through the use of data, book looks and observations. SEND students at Bolder achieve above the average for other SEND students in the country.

4. Support for overall well-being

a. What support is available to promote my child/young person's emotional and social development?

- The Academy has a strong sense of community and our values underpin all the work that we do: be kind, be strong, be brave.
- The Academy's behaviour policy is consistent, fair and aims to promote inclusion with clear guidance on rewards and sanctions. Students can achieve rewards for outstanding work and contribution to lessons. Attendance is monitored regularly and concerns are shared with parents/carers as applicable.
- All staff are adequately and regularly trained in Child Protection, Prevent and Safeguarding. Specialist staff are also trained as Designated Safeguarding Officers.

5. Preparation for new students and next steps

a. How will you help and prepare my child to join your Academy?

- Bolder Academy recognises that transitional periods can sometimes be particularly challenging for students who have SEND and consider it essential to offer the appropriate level of support.
- Bolder Academy works closely with local feeder primary schools and students with SEND needs are highlighted. To support the transition from primary to secondary, some students with SEND needs are invited to attend extra transitional days at Bolder Academy as appropriate.
- Preparation for the transition to post 16 education will include regular liaison with various educational institutes, careers interviews and planning as well as the sharing of information where appropriate to facilitate an effective move.

b. How will you prepare my child young people to join their next year group/school/college/ stage of education or life?

- There are careers input sessions throughout years for all students delivered through a robust PSHCE programme.

6. Accessibility and specialist equipment

a. How accessible is the Academy environment? (The Academy's Accessibility Plan can be found on the website under policies.)

Is your Academy wheelchair accessible?

Bolder Academy is fully wheelchair accessible. Students are able to access all classrooms, playground and other areas to access a full curriculum.

Have adaptations been made to the auditory and visual environment?

As part of our transition process full environmental audits will be conducted to ensure accessibility for the individual needs of our students in relation to the auditory and visual environment. This will take place for the permanent site. During the time we are in the temporary site there will be limited provision.

What changing & toilet facilities does the Academy have for children and young people with SEND?

Bolder Academy has disabled toilets throughout the Academy in each toilet area. There is limited accessible changing facilities in the temporary site.

Do you have disabled car parking for parents/carers?

There are no disabled car park spaces at the temporary site. There will be at the permanent site.

7. Training for staff, specialist services and further support

a. With regard to staff who support children with SEND, what expertise do they have and what training have they undertaken?

- The SENDCo **has completed** the National SENDCO Award and is a Qualified Teacher Status.
- The Teaching Assistants attend training sessions and professional development focused around developing skills and attributes relating to SEND matters.

b. What other agencies do you involve to meet the needs of my child/young person and how can I access support from these agencies?

- Bolder Academy works with a range of outside agencies to help support the needs of its SEND students.

c. Who should I contact if I have a complaint about SEND provision?

- Contact Frances Gibney (SENDCo) in the first instance: office@bolderacademy.co.uk
